ELECTRIC HOTEL FOR PARIS

Current Will Do Everything in the
Proposed Structure Except Pay
Guest's Bill.

The interesting news comes from
Paris that a hotel will be built there
in which all the domestic service will
be performed by electricity. If the
promoters of the scheme keep their
promises, everything will be done by
electricity except the guests' payment
of their bills. Even then they can
give the cashier a shock by refusing
to pay.

There will be no waiters, no bell
boys, no coat boys, no chambermaids,
and consequently no tips. If a guest
arrives home at 3 a. m. all he will
have to do is to touch a button, which
will turn an electric sun, and then he
can say to his wife:

"My dear, you're really getting
lazy. Look at me. I'm up and dressed!"

If he feels that he needs a cocktail,
he can touch another button. One
touch brings a martini, two whisky,
three a Manhattan, four very outh,
five an ambulance. In answer, a dumb
waiter rises through the floor either
to bring the desired bracer, or, when
need be, to lower the guest to the
ambulance.

The hotel promoters lay much
stress on the fact that all their wait-
ers are dumb. In place of the ordi-
nary Swiss who only stand and wait,
instead of running and serving, there
will be automations run by electricity
and guaranteed not to spill soup down
your back or creamed asparagus in
your lap. The dining table will be
decorated with flowers raised by in-
tensive electrical culture in both win-
ter and summer, for there will be no
seasons in this hotel; push a button
and you're warmer than when you see
another fellow walking with the "only
dear one on earth," push another
button and you're colder than when
the other fellow frigidly asks, "What
the devil are you doing here?"

One of the features of the hotel will
be an electric orchestra, in which all
kinds of stringed instruments will ap-
parently play of their own accord.

The inventor, a Frenchman named
Georgia Knap, who has spent years ex-
perimenting with the various devices,
asserts that they are now all abso-
lutely perfect, and has formed a com-
pany under the name "Societe des Ho-
tels Electriques" for the purpose of
building electric hotels in every big
city throughout the world.—New York
World.

HINTS FOR MUSIC PUPILS

If They Reside in Flats They Should
Practice When Everyone
Else is Out.

Persons learning music and living
in flat buildings should be induced to
practice playing and singing on sched-
ule.

A time at which nobody but the
cook is around is suggested as a good
one.

This would be considered a hardship
by the grown person who works down-
town and seeks the solace of music as
interpreted by himself, but somebody
in every community must make a sac-
rifice now and then.

Eight o'clock Sunday morning is not
the time for a man with faulty fingers
and an erroneous ear to play on the
violin "Has Anybody Here Seen Kelly?"
The answer of "no" is apparent,
but the question is persisted in and
the late once-a-week sleep which is
a luxury to many is made impossible.

In fair weather the budding cor-
netist or violinist likes to sit by a win-
dow opening upon the light shaft. This
spreads his villany all the easier
among the neighboring apartments.

If it isn't a violin or a cornet it is
a piano or the underdeveloped singer
that is an infliction. "The Mikado"
scale of justice is not available, but
is pleasant to contemplate.

Crook With a Conscience.

A man walked into police head-
quarters the other night and handed
Lieut. Gabe a pocketbook in which
was \$2.65.

My name is Charles Schlick, and
there is some money I picked from a
man's pocket in the subway this even-
ing," he said. "I'm no common crook,
but I've been here three months and
can't find a job. For two days I've
been hungry. Tonight I sneaked by
the ticket chopper in the Brooklyn
bridge subway station, and standing
next to this fellow I saw my chance.
I got away with it, got off the train
as Fourteenth street, got a good meal"
—he straightened up—"and there's the
change."

He said his conscience had so trou-
bled him that he wanted to give him-
self up.—New York Sun.

Affection by Proxy.

"I find that my husband has been
having the office boy call me up every
day and murmur terms of en-
dearment. That's a nice way to
fool his wife. He's been going to the
ball game."

"How is it that you didn't catch
on to the voice?"

"Well, I'm busy at bridge every day
and I've been having the cook answer
the telephone."

A Test of Tact.

James Bryce, the British Ambassa-
dor at Washington, is the most tactful
of men, and at a luncheon at the Coun-
try club he once defined tact in these
words:

"Tact is the ability to remove the
sting from a dangerous stinger with-
out getting stung."

Miss Pearl Dougherty of Graham re-
turned Wednesday to her school work
at the State Normal. She makes her
home with Mrs. W. P. Howland.

William Wagner and Wes Miller of
Burlington Junction were visitors in
the city Tuesday.

Miss Neola Thummell of Parnell re-
turned home Tuesday from a several
days' visit in the city.

Mrs. J. O. Anderson of Bedford, Ia.,
was shopping in the city Wednesday.

GIBRALTAR NEVER IS ASLEEP

Guns of the Great Fortress Are Kept
Trained Constantly on the
Surrounding Waters.

While it has always been known
that Gibraltar, which belongs to Great
Britain, is one of the world's strong-
est forts for both defense and offense,
it seems incredible that an immense
fleet could be sent to the bottom be-
fore getting within five miles of Gib-
raltar. Not even a torpedo boat
could succeed in entering the bay un-
observed on the blackest night. The
most eminent naval experts are of
the opinion that this world's greatest
fortress is almost impregnable.

Gibraltar never sleeps. By day and
night two perfectly equipped signal
stations, proudly flaunting Britain's
flag of ownership, sweep the seas
around to a distance of 15 miles on a
clear day, instantly reporting the com-
ing and going of each vessel.

Modern "needle" guns, the finest in
Europe, are installed on all the most
prominent points. They are unreach-
able from the sea, even as they are in-
discernible, owing to the skill with
which they are planted and draped to
match the surrounding vegetation,
while huge screens drop automatical-
ly before them as each shell is fired.
They have a range of 15 miles and
could drop shells on Ceuta, in Africa,
opposite, quite comfortably.

One gun weighs 110 tons and is
capable of throwing a shell weighing
three-quarters of a ton. In that mar-
vel of engineering under great diffi-
culties, the galleries, are concealed
guns for every day in the year.

These galleries are divided into
three sections, entry to which is
guarded, while one is closed even to
high officers, containing preserved
stores, munitions of war, rain water
(for Gibraltar has no springs) and a
complete condensing plant—all calcu-
lated to outlast a siege of seven
years.

The firing is the most mathemati-
cally perfect imaginable. The surround-
ing waters are mapped out into
squares, upon which certain guns are
kept ready trained, so that it is al-
most impossible to miss.

PLACE FOR FASHION HINTS

Policeman's Wife Rejoices Over His
Promotion to the Fifth
Avenue Squad.

When it was reported that the cross
street policeman had been promoted
to the Fifth Avenue squad the police-
man's wife declared that she was the
happiest woman in New York.

"Oh, it isn't the salary," she said,
"nor the honor. I don't know whether
he will get any more money or not,
and as for the honor, he had enough
of that where he was. But the fash-
ions; just think of the hints he will
pick up on them. For the last five
years I have been sick with envy of
the Fifth Avenue policemen's wives
every time I went to a policeman's
ball. They looked so chic. When
asked where they got their ideas they
said:

"Why, from my husband, of
course. He is right in the center of
fashion, and he takes notes and comes
home and tells me things. Then when
I get my clothes made up he can com-
pare me with the women he sees
every day and tell whether I look
just right or not."

"Now it is my turn to crow. My
husband's eye for clothes is as keen
as any man's, and there won't be
much in the way of style that will
escape him. Oh, yes, no doubt he will
be kept pretty busy managing the
traffic, but you can trust him to find
out how the new clothes are made, just
the same."

OPIUM PROBLEM IS SERIOUS

Where the Poppy Is No Longer Cult-
ivated in China, Bees Stop
Making Honey.

Some unexpected results are found
from the movement against the pro-
duction of opium in China. In the
Yunnan, one of the provinces where
opium was produced in large quanti-
ties and at a low price and where a
great deal of it was consumed, it ap-
pears that the poppy is no longer cul-
tivated, owing to the recent measures,
and the poppy fields have quite dis-
appeared, according to the statements
made by Doctors Talbot and Rigaud.
However, this has had a disastrous ef-
fect on the honey culture of the re-
gion. In fact, the honey from Yunnan
was renowned for its quality, but as
the bees find no more flowers, the
production of honey is stopped as well.
The new crops which replace the
poppy, such as wheat or peas, are
not such as will give honey yield as
well. On another side of the ques-
tion, it appears that the habits of the
population are not suppressed by the
present legislation, as some supposed
would be the case, but according to
Doctor Talbot, opium-smoking is again
on the increase.—Scientific American.

TASTE, SMELL AND HEARING GONE

Destroyed by Catarrh Can Be Quickly Restored by Using Ely's Cream Balm.

The thousands who suffer the miseries of colds and catarrh and claim they have never found a cure can get instant relief by simply anointing the nostrils with Ely's Cream Balm.

Unlike internal mixtures which upset the stomach, or strong snuffs which only aggravate the trouble, this cleansing, healing, antiseptic Balm instantly reaches the seat of the trouble, stops the nasty discharge, clears the nose, head and throat, and brings back the sense of taste, smell and hearing. More than this, it strengthens the weakened and diseased tissues, thus

protecting you against a return of the trouble. This remedy will cure a cold in a day, and prevent its becoming chronic in catarrh.

Nasal catarrh is an inflammation of the membrane lining the air passages, and cannot be reached by mixtures taken into the stomach, nor can it be cured by snuffs and powders, which only cause additional irritation. Don't waste time on them. Get a 50 cent bottle of Ely's Cream Balm from your druggist, and after using it for a day you will wish you had tried it sooner. If your case requires a spray, ask for Ely's (Liquid) Cream Balm.

Mothers should give the children Ely's Cream Balm for colds and croup. It is perfectly harmless and pleasant to take.

POSSE IS HUNTING WHITE MURDERERS

Tables Turned in South When Negro Farmer and Daughter Are Killed.

BURNED ON LOAD OF COTTON

White Citizens Furious Over Outrage and Quick Death Will Follow Capture—Mob With Dogs is in Pursuit.

Savannah, Tenn., Dec. 6.—Four white men are fugitives from a posse of prominent planters who seek to avenge the murder of a respected negro farmer and the lynching of his two daughters. The slayers burned the three bodies on a load of the farmer's cotton.

Bloodhounds were put on the trail of the slayer and the whole country, ailed, aroused by the atrocity, arose and joined in the pursuit. It is believed the slayers will be lynched.

The identity of the murderers is unknown. There was no apparent motive for the crime.

Ben Pettigrew and his two young daughters, who lived on a farm near Fisher's landing were the victims. Pettigrew had borne a reputation for honesty and trustworthiness unequalled among the colored population of this section and was regarded as highly as any members of his race in the South.

Pettigrew was driving a load of cotton from his farm to Savannah. On the road a few miles from his place four white men appeared and shot him to death as he sat in the seat of his wagon. Then they dragged his two daughters from the top of the load and hanged them to a nearby tree. While their bodies dangled from a limb the slayers drove the load of cotton under them and set fire to it.

Other farmers driving along the road saw the blazing cotton and arrived in time to see the four slayers escape into a dense thicket.

The bodies of Pettigrew and his daughters were burned to a crisp before the cotton fire could be extinguished.

The authorities here were notified of the slaying and at once organized a posse. The most prominent and wealthy planters in this section of the country volunteered to aid in running down the fugitives and an alarm was sent throughout the countryside.

Fifty men and four bloodhounds were in the posse when it left Savannah. As news of the crime spread new volunteers joined the band until more than 300 men and a dozen dogs were on the trail. Ropes were carried by some of the rescuers.

Orders Bail for a Kansan.

Topeka, Dec. 6.—The Kansas supreme court has just issued a writ of habeas corpus for the release of N. T. Oleson from the county jail at Council Grove when Oleson puts up a bond for \$20,000 for his appearance next month. Oleson is in jail for the murder of Walter H. Newfarmer, August 28, 1911, and the Morris county court refused to grant his release on bail because he was held for murder in the first degree.

Boy Accidentally Killed.

Thayer, Mo., Dec. 6.—Charles Mendenhall, 14 years old, who lived near Thayer, was accidentally shot and killed. The boy had gone out after breakfast with a small rifle and soon afterwards was found in the barnyard with a bullet hole in his head.

Italian Victory in Tripoli.

Tripoli, Dec. 6.—A force of 20,000 Italians attacked and occupied the Turkish military camp on the oasis of Ain-Zara after a severe battle in which both sides are reported to have lost heavily.

HUMOR IN HIS EXAGGERATION

Jabish Furlong's Recital Illustrates the Characteristic That Makes Maine Stories So Amusing.

Novel and exaggerated smiles and comparisons characterize Maine speech. Instead of such commonplace as "As light as a feather" and "As dark as a pocket," the comparisons are likely to be "Forty pounds lighter than a straw hat" and "As dark as the inside of a cow."

And it is this same humorous exaggeration that makes many a Maine story so likeable. Jabish Furlong, who worked for old man McKusick in haying time, had it.

"I had the greatest luck out gunning the other day," said Jabish. "I was walking a log across a deep hole in the brook, when I see a squirrel up a spruce on the furdur bank. I up right there and fired, and I fetched down the squirrel and a partridge besides that was settin' in the spruce budbin'."

But the old gun kicked me into the brook. Well, I floundered around, catchin' hold of everything within reach, and when I found myself up on the bank, I had a mink in one hand, a musquash in 'other and the seat o' mer pants was full o' trout."

Where Wesley Wrote Hymns.

The Rev. J. H. Wicksteed, vicar of Bexley, Kent, England, has presented to the Wesleyan Methodists of Gravesend and Dartford circuit a tree from the vicarage garden, a sapling of the old oak under whose branches John and Charles Wesley, with George Whitefield, often met in friendly conference.

It is believed that Charles Wesley composed some of his hymns under its shadow, and John, in his diary of September 22, 1740, writes: "I went to Mr. Pier where in a large day."

PRISON FOR THE McNAMARA'S

J. B. GOES FOR LIFE—J. J. FOR FIFTEEN YEARS.

Judge Comments on Plea That Destruction of Life Was Not Intended—The Confession.

Los Angeles, Dec. 6.—James B. McNamara, confessed murderer, was sentenced to life imprisonment here by Judge Walter Bordwell.

His brother, John J. McNamara, secretary of the International Association of Bridge and Structural Iron Workers, who confessed to the dynamiting of the Llewellyn Iron Works, was sentenced to 15 years in the penitentiary.

Twenty-one persons lost their lives in the Times disaster. No one was killed in the Llewellyn Iron Works affair.

Imprisonment will be in San Quentin penitentiary.

"The defendant will arise," said Judge Bordwell, who then commented upon McNamara's declaration that he did not intend to destroy life.

"The circumstances are against that statement," he said.

For reasons other than such a plea of non-intent, Judge Bordwell declared he would impose the penalty of imprisonment for life.

John J. McNamara came next. The Llewellyn Iron Works indictment was read to him by the judge.

Judge Bordwell declared that the strictures against James B. McNamara would also apply to him.

Clemency, he declared, was not because of merit as to intent. He then imposed sentence of 15 years in San Quentin penitentiary, one year more than had been predicted.

Los Angeles, Dec. 6.—James B. McNamara's brief confession, penned by his own hand and bearing many evidences of a man little skilled in letters, has been made public. It is as follows:

I, James B. McNamara, defendant in the case of the people, having heretofore pleaded guilty to the crime of murder, desire to make this statement of facts. And this is the truth. On the night of September 20, 1910, at 5:45 p. m., I placed in Ink Alley, a portion of the Times Building, a suitcase containing sixteen sticks of 80 per cent dynamite, set to explode at 1 o'clock the next morning. It was my intention to injure the building and scare the owners. I did not intend to take the life of anyone. I sincerely regret that these unfortunate men lost their lives. If the giving of my life would bring them back I would gladly give it. In fact, in pleading guilty to murder in the first degree, I have placed my life in the hands of the state.

(Signed) JAMES B. McNAMARA.

BIG FEE FOR DEFENSE ATTORNEY

Clarence Darrow, Who Handled McNamara Case, Got \$50,000 for His Work.

New York, Dec. 6.—"Not less than \$50,000" was the fee received by Clarence Darrow for his services in defending the McNamara brothers in the Los Angeles dynamiting cases, according to a declaration made by Frank B. Morrison, secretary of the American Federation of Labor and custodian of the McNamara defense fund.

Mr. Morrison also said that notwithstanding the McNamara brothers' pleas of guilty in the Los Angeles dynamiting cases, money for their defense was still pouring in. These receipts represented subscriptions made before the pleas were entered. Mr. Morrison and other members of the federation's ways and means committee, who have charge of the fund, will meet in Washington soon to discuss the case, especially from a financial viewpoint.

Deeds, Not Words, to Count.

Berlin, Dec. 6.—The Moroccan question came up at the final session of the Reichstag. Chancellor Von Bethmann-Hollweg in a speech lasting half an hour gave a calm and dispassionate exposition of the German case. The discourse made it clear that Anglo-German relations in the future would depend on deeds rather than on assurances.

A Tennessee Romance.

A St. Louis man went down into Tennessee the other day to freshen memories of his youth. In the course of looking up everybody he called upon an old negro mammy who is a fixture upon the place.

"What's new, mammy?" he asked.

"Well, Marse Bob, they ain't no nuthin' new 'cept Nellie's gwin marry Lee," she said.

"That trifling nigger Lee, mammy? How did that happen?"

"Ah don't know, Marse Bob. You see, Nellie's got a home an' a stove, an' fall's a comin' on. Ah 'spects that nigger Lee's jes' fixin' to bamble the winger, Marse Bob."—St. Louis Post-Dispatch.

He Called It Luck.

Michael Meehan was the proud possessor of a brand new silk high hat. At the wake of his dearest enemy he had guarded it carefully, and as a consequence was strolling home with the tile unscathed. As he passed the site of a building operation, a woman acquaintance nodded pleasantly. With an ostentatious wave of the hat, which exhibited it to excellent advantage, Michael bowed. At the same moment a brick sailed down from an upper floor and bounced from his bare skull. Upon coming to, he inquired anxiously for the hat. A bystander restored it unharmed. Mike felt the egg-size lump on his head occasioned by the impact of the brick, and then regarded his undamaged tile. "Bgorry," he sighed in satisfaction, "it's lucky it is I saw the loidy in toime!"—Lippincott's Magazine.

No More Pudding.

Margaret, a little girl of four, was visiting her grandparents. There were a number of aunts who were somewhat careful of her looks as well as her morals. When read to go home she said: "When I get home I'm wash my face, I'm not wash my face, I'm wash my face, I'm wash my face, I'm wash my face."

CHINESE REBELS LACK A LEADER

Revolutionary Juntas Anxiously Await Arrival of Dr. Sun Yat Sen.

ANARCHY THREATENS EMPIRE

Conditions Everywhere Growing Worse Millions Starving Near Shanghai—Both Sides Out of Money.

Shanghai, Dec. 6.—Each day brings deeper apprehension that China is slipping into a political chaos. Although the fundamental aims of the present revolutionary movement are worthy, they are brought to naught by lack of cohesion, lack of funds and lack of a real leader.

The revolutionary juntas here are now marking time, awaiting the arrival of Dr. Sun Yat Sen, who is expected at any moment.

The fall of Han-Yang last week proves to have been due entirely to wholesale desertions of rebel troops enrolled in Hu-Nan province. Most persons attribute the desertions to the old time jealousies between the people of Hu-Nan and Hu-Poh.

The complete collapse of the imperial government is regarded here as imminent and there is as yet nothing able to take its place. The revolutionists have thus far been incapable of effecting and cohesion among themselves and unless Dr. Sun Yat Sen proves to be the man of the hour they will be found far less efficient if called on to take up the responsibility of a national government.

The cost of the struggle thus far has been far greater than is easily realized. Apart from the losses of campaign and battle fields, it has plunged a majority of the provinces into poverty and famine, it has stopped all commerce and trade, crippled agriculture and industries and diverted practically every penny of tax revenue from the purposes of peace.

The moral effect on the people at large is another matter. Reports from the interior indicate that conditions everywhere are growing worse. Brigandage is almost the only profitable profession left to a people hitherto peaceable and orderly. Millions are starving within a radius of a few hundred miles of Shanghai.

Close observers are more and more uneasy regarding the prospects for foreigners in the immediate future.

Facts are hard to get at. Both sides are financially close to bankruptcy and realize that their first need is to establish credit. In the hope of securing assistance abroad they are unscrupulous in the use of legitimate and illegitimate means to influence opinion.

Some of the accounts of barbarities and atrocities may have been exaggerated, but it must be remembered that many things which make the Westerner shudder cause no disturbance to the nerves of the Oriental.

MOBBED SHIRT-WAIST MAKERS

Survivors of Tri-Angle Fire in New York, Attack Factory Owners in Courtroom.

New York, Dec. 6.—A mob of 300 women, survivors of the Tri-Angle Waist company fire in which 146 girls lost their lives, attacked Isaac Harris and Max Blank, proprietors of the waist company, when the men appeared in court to stand trial for manslaughter.

All the court officers in the building and the police reserves were called out to check the assaults.

With torn clothing and disheveled hair the defendants were finally released and escorted under heavy police protection to the courtroom. The women had been summoned as witnesses for the prosecution.

State Poultry Show.

Fulton, Mo., Dec. 6.—The annual state poultry show for northeast Missouri has just opened in this city. The Callaway county fanciers are represented at the show by the largest number of birds ever shown by one county at the state show. A poultry school will be conducted and Henry Steinmesch and C. A. Morton of St. Louis will lecture. E. E. Reynolds of Vandallia is superintendent of the show. The exhibition will end Friday. A meeting of state association members will be held Thursday night.

To Picture shows in Chains.

Topeka, Dec. 6.—Two of the most dangerous criminals in Kansas are being taken to moving picture shows at St. John and J. N. Dolley, state bank commissioner, has ordered that the practice be stopped. Walter Berger is under sentence of 35 years in prison and Charles McKenzie has been sentenced to 40 years in prison for the robbery of the Hudson State bank in Stafford county last spring. These are the heaviest sentences imposed on bank robbers in Kansas.

Olathe Adopts New Rule.

Olathe, Kan., Dec. 6.—The two years' campaign here for the commission form of government was won by a vote 461 to 71. The vote was light because there was no opposition to be overcome. City officers will be elected under the new form in the spring.

SOCIALISTS LOSE IN LOS ANGELES

Developments of McNamara Case Helped Defeat Harriman.

PROHIBITION ALSO DEFEATED

Much Scratching of John A. Scott, One of the Defense Attorneys in Dynamiters' Trial—Election Was Quiet.

Los Angeles, Dec. 6.—Socialism grappled in a final struggle with its opponents under the "good government" banner at the ballot box and was defeated. Evidently the sudden change in the McNamara case had an effect.

Estimates based on a partial count of the vote place the majority for Mayor Alexander over Harriman at more than 50,000. Alexander carried Harriman's precinct, 1,537 to 192. Partial returns indicate that prohibition has been defeated.

Ninety per cent of registration on the West Side, where the vote was light in the primary, was voted, while on the East Side, Harriman's stronghold, there was a falling off in comparison. The women on the West Side outvoted the men. The reverse was true in precincts where Harriman was the stronger in the primary. But the balance of power, which the women were credited with having prior to the astounding finale of the McNamara case last Friday, did not figure in the result.

Harriman was in conference with his campaign manager, Alexander Irvine of New York, early in the evening. He declared that gross frauds had been perpetrated by the opposition, but refused to concede his defeat.

The victorious ticket consists of Mayor Alexander and nine councilmen, made up of bankers, lawyers, store keepers and realty brokers.

On the defeated Socialist ticket, beside Harriman, the lawyer, there were one negro junk dealer, a former editor of one of the local morning papers, two iron moulders and several labor leaders.

One feature of the balloting was the scratching, which was early apparent of Joseph A. Scott, candidate for reelection to the school board who also was one of the attorneys for the McNamaras.

It became apparent early that the trouble expected to develop on account of the feeling engendered by the McNamara case would not occur during the balloting. "The peace insurance" army of 1,000 officers detailed by Chief of Police Sebastian and Sheriff Hammel had little to do.

Only three minor cases of trouble were reported. Except for these peace prevailed and for this, leaders of both sides thanked the women, thousands of whom were crowded about the polling booths of the 317 precincts.

The women were treated with the greatest gallantry. Many went to the polls propelling baby carriages, and often father took care of baby while mother voted.

CUT DIPLOMATIC EXPENDITURES

Representative Hamlin of Missouri, Wants to Amend Statute Controlling Secret Fund.

Washington, Dec. 6.—Criticism of president and secretary of state for their interpretation of the statute governing the secret fund for the state department was made by Representative Hamlin of Missouri in a speech in the house. Hamlin is chairman of the committee on state department expenditures, which has been making an investigation.

In six years, Hamlin said, department officials had expended secretly \$732,981, averaging \$122,000 a year, when the secret fund appropriated for such a purpose was only \$90,000 a year. He called upon the house to amend the statute to prevent the fund becoming "the very haven of official piracy."

Mississippi Boat Sank.

Thebes, Ill., Dec. 6.—The large steamboat City of Savannah, going from Cairo to St. Louis, struck a snag in the Mississippi river opposite Elkins Landing, ten miles below Thebes and sank in 12 feet of water. All passengers and crew were taken off safely. The boat carried a heavy cargo. Relief was sent from Cape Girardeau, Mo.

Big Grocery Fire.

Kansas City, Mo., Dec. 6.—Fire which was discovered at 11 p. m. resulted in a total loss of the building occupied by Long Brothers, wholesale grocers, at the corner of St. Louis Avenue and Santa Fe Street, in the West Bottoms. The value of the stock and the building was over \$360,000.

His First Journey at 73.

Nevada, Mo., Dec. 6.—Joel Smith, 73 years old, who was born in Cedar county, left that county for the first time and took his first ride on a railroad train. He came to Nevada to take a trip to Oklahoma. Smith's longest previous journey was to Eldorado Springs, six miles. Smith owns much valuable land in Cedar county.

CAUSE FOR ALARM.

Loss of Appetite or Distress After Eating a Symptom That Should Not Be Disregarded.

Appetite is just a natural desire for food. Loss of appetite or stomach distress after eating indicate indigestion or dyspepsia. Over-eating is a habit very dangerous to a person's good general health.

It is not what you eat, but what you digest and assimilate that does you good. Some of the strongest, heaviest, and healthiest persons are moderate eaters.

There is nothing that will cause more trouble than a disordered stomach, and many people daily contract serious maladies simply through disregard or abuse of the stomach.

We urge all who suffer from any stomach derangement, indigestion, or dyspepsia, whether acute or chronic, to try Rexall Dyspepsia Tablets, with the distinct understanding that we will refund their money without question or formality, if after reasonable use of this medicine, they are not perfectly satisfied with the results. We recommend them to our customers every day, and have yet to hear of any one who has not been benefited by them. We honestly believe them to be without equal. They give very prompt relief, aiding to neutralize the gastric juices, strengthen the digestive organs, to regulate the bowels, and thus to promote perfect nutrition, and eradicate all unhealthy symptoms.

We urge you to try a 25c. box of Rexall Dyspepsia Tablets, which gives 15 days' treatment. At the end of that time, your money will be returned to you if you are not satisfied. Of course, in chronic cases length of treatment varies. For such cases, we have two larger sizes, which sell for 50c. and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store. The O'Keefe-Henry Drug Co., 113 North Main Street.

I advise every woman who wants beautiful hair to use Parisian Sage." Miss Meta M. Kruger, Brownstown, Minn.

New Russian Oil Region.

While Baku is known as the great oil producing province of Russia, and its wells have produced immense quantities, its reputation bids fair to be overshadowed by the new region, the Sallany Steppe. Sallany is about 125 miles distant from the city of Baku, on the shore of the Caspian sea, at the mouth of the Kura, the largest river in the Caucasus. Its position is a commanding one, both for supplying the European and eastern market. The petroleum deposits in the Sallany steppe have been known for years, but only recently has attention been attracted thereto. The possibilities are very great.

Forced to It.

"Did you ask father if you might have me?"
"Yes, darling."
"What did he say?"
"He said he would rather see you home to your grave."
"Oh, papa, then we'll have to take it up with mother personally."—Chicago Record-Herald.

NOTICE

In accordance with a petition of the citizens thereof, and presented to the board of aldermen on December 1, 1911, it is hereby ordered by the board of aldermen that the provisions of ordinance No. 282, of the city of Maryville, Mo., providing for a uniform and systematic plan for house numbering in the city of Maryville, Mo., be put into effect and be enforced. It is hereby ordered that Mr. John Spickerman be and he is hereby given permission to make all such necessary arrangements to put the plan and system as contained in the said ordinance No. 282 into effect, and to enforce the same.

Said ordinance No. 282 may be found on page 362 of book 8, city ordinance record.

Under the present plan and system it is very inconvenient for mail carriers, merchants and the fire and police department to find houses as now numbered.

It is the desire of the city to have such a system as may be readily understood by all persons concerned, and that the same shall be permanent. I therefore order that this ordinance be strictly adhered to.

WHY HAVE GRAY HAIR.

Sage and Sulphur Will Restore Gray and Faded Hair to Its Natural Color.

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance they made a brew of sage leaves and applied it to their hair, with wonderfully beneficial effect.

Nowadays we don't have to resort to old-time, tiresome methods of gathering the herbs and making the tea. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready-made product, Wyeth's Sage and Sulphur Hair Remedy, containing sage in the proper strength, with the addition of sulphur, another old-time scalp remedy.

The manufacturers of this remedy authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

Don't neglect your hair. Get a bottle of Wyeth's Sage and Sulphur today, and notice the difference after a few days' use.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agents, Koch Pharmacy.

NO. 159.

WILL TRY IN COUNTY

"WETS" RETALIATE ON "DRYS" IN LOCAL OPTION ELECTION.

PETITIONS CIRCULATED

It is Claimed Enough Have Already Signed to Force Court to Call a Special Election.

A local option election in Nodaway county, outside of Maryville, is likely to be held after the first of the year. Petitions are now being circulated by the "wets," and it is said that they have enough signers now to make it imperative on the county court to call the election.

Since the "drays" in Maryville are responsible for the special election in this city, when the local option question will be voted on January 5, 1912, the "wets" have been busy at work over the county securing signers to their petition calling on the county court to submit the question over the county.

The petition of the "wets" will be presented to the county court at their regular meeting in January, and if it is found that there are enough signers on the petition the court will set aside an election day, when Nodaway county, outside of Maryville, will vote on the question again. If Maryville should go "wet" at the election to be held in January, many are of the opinion that the rest of the county will do the same thing. In other words, many are of the opinion that if Maryville thinks it is right to have saloons the rest of the county ought to enjoy the same privilege.

The local option election held in Nodaway county outside of Maryville was four years ago, or in September, 1907. The election in the county was held on the same day as the election in Maryville, the drays winning in the county by over 600 majority, and the wets winning in Maryville by about 200 majority.

The wets are busily at work in Maryville organizing and will make a determined effort to win in the election in January. The drays are doing the same thing, and it looks as if one of the warmest elections ever held in Maryville will be held on Friday, January 5.

TO GIVE ENTERTAINMENT.

One to Be Put On by the Ladies' Band and Company F at the Business College Auditorium.

An entertainment entitled "The Blue and the Gray," will be given on Friday evening, January 5, in the Business college auditorium by the Ladies' Military band and Company F. The proceeds to be turned into the expense fund of the two organizations. A patriotic program is to be given, composed of patriotic music and addresses. The addresses will be given by Prof. W. A. Gardner of Massachusetts, who will speak of the causes of the war from a northern standpoint, and Hon. Granville Jones of Louisiana, who will speak from the southern point of view. The management of "The Blue and the Gray" believe the fiftieth anniversary of the commencement of the war marks a time when such a program is not only possible but is in keeping with the spirit of the new nation.

It costs these organizations nearly \$100 to get this entertainment and speakers here from the National Lyceum bureau.

Normal basket ball hopes were given a severe setback Tuesday when word was received that Ralph McClintock, the star left guard of the Normal five, is ill at his home, near Fairfax, with typhoid fever. McClintock is one of the best basket ball guards in this part of the state, and his services will be greatly missed. His many friends in this city hope for a speedy recovery.

TO CALL JUDGE ELLISON

To Sit in the Fee Case to Come Up at St. Joseph.

Judge W. C. Ellison of this city will probably sit in the two fee cases against Price Smith and Ambrose Patton in St. Joseph, either this month or in January. The St. Joseph Gazette says:

W. K. Amick, judge of division No. 2 of the circuit court, announced yesterday that he would call in another judge, probably Judge W. C. Ellison of Maryville, to sit at the trials of two fee cases against Price Smith and Ambrose Patton.

The cases are suits for fees which it is claimed Smith collected while county clerk, and Patton secured while county clerk, to which they have no legal claim. The suits were brought by C. C. Farrell, prosecuting attorney. They are docketed for trial Dec. 16, but it is likely they will go over to the January term of court, unless Judge Ellison can come here this month.

HELD "BIG NIGHT"

ODD FELLOWS ELECTED OFFICERS FOR ENSUING YEAR.

SIX MILLIONS PAID OUT

Has Membership in State of 65,000, While Its Auxiliary, the Rebekahs, Have 30,000.

"Big night" was held at the I. O. O. F. lodge Tuesday evening, at which time the annual election of officers took place. A letter from Grand Master J. H. Bryant of Burlington Junction was read, in which he tells of the work of the I. O. O. F. lodges over the state, and about the condition of the organization. Mr. Bryant writes that the society stands alone in the point of financial and attentive benefits, paying out last year nearly \$6,000,000, and that the lodge is the wealthiest fraternity in existence, owning more lodge property in Missouri than the ground up than any other fraternity. There are 65,000 Odd Fellows and 30,000 Rebekahs in the state.

L. C. Cook was selected as district representative to the state grand lodge meeting for the next two years. The district includes the lodges at Maryville, Barnard, Wilcox, Pickering and Hopkins.

The other officers elected were: H. C. Smith, noble grand; Henry Trullinger, vice grand; John G. Grems, treasurer; Eugene Rathbun, secretary.

A tag day committee composed of L. C. Cook and H. C. Smith was appointed to meet with the committee from the other lodges in town and see to holding a tag day in Maryville.

COMMITTEES APPOINTED

Meetings of Local Option Organization and Executive Committee Held Wednesday Morning.

A meeting was held Tuesday evening in the M. E. church, South, of the workers back of the local option movement to discuss ways and means for the campaign. Several matters were discussed, but as yet the local option workers have not formulated their plan of campaign.

A meeting of the executive committee was held Wednesday in the office of George Moore, at the Moore Bros. lightning rod factory. Several committees were appointed, one being a committee to select and send out literature. Also a committee to raise funds for the campaign was selected, composed of J. Arthur Way, E. C. Curfman, T. L. Wadley and H. W. Hall.

There is a report that several names are on the local option petition that were not authorized and were not put there by the respective parties. The local option workers investigated the matter Wednesday and find that there are no names on the petition other than those that signed it. The report that there were several unauthorized names on the petition, it is said, came from the "wets."

Twentieth Century Club.

The Twentieth Century club met in regular session Tuesday afternoon in the ladies' parlors in the Elks' club rooms. After a brief business session, the meeting was turned over to Miss Hettie Anthony of the domestic science department of the Northwest Normal. Her subject, "Food Sanitation," was presented in a very thorough and interesting manner. The subject was divided into three parts, assigned to three of the club members, who are studying domestic science under Miss Anthony. Miss Bertha Beal's remarks were on "Adulteration of Foods," and were illustrated in a way to show the importance of unadulterated foodstuffs. Miss Helen Leffler took up the subject of "The Pure Food Law." The speaker said that the pure food law of June 30, 1906, has proven a most popular law. The labeling of manufactured goods was explained and illustrated with different brands of canned goods, which had been secured from our local grocers. It is safe to say that hereafter all canned goods used by the ladies hearing this subject discussed will be carefully observed as to artificial coloring and preserving substances. Miss Donna Slason took up the question of food sanitation as considered locally. The general session brought out the

First Tag Day for Maryville, and Young Women Are Expected to Do the Tagging.

A number of the local lodges are back of a movement to have a "tag day" in Maryville within the near future, when the proceeds of the day will be turned over to the charity board to be used this winter for the poor of the city. The lodges that have so far appointed committees are the Owls, the Elks, the W. O. W., and the I. O. O. F. A committee will probably be appointed from the M. W. A. at their regular meeting Thursday evening.

The committees from all these lodges will meet Sunday afternoon at the Elks club and decide on the date for "tag day."

From the Owls—Mayor A. S. Robey, Lawrence Schumacher and W. E. Hollin.

This will be the first time a tag day will have been set in Maryville for the purpose of raising a fund for the benefit of the needy, and it bids fair to be a success, for the suggestion of a few days ago in regard to the matter has met with a response that indicates a successful day for the young women of Maryville.

ELECTRIC HOTEL FOR PARIS

Current Will Do Everything in the Proposed Structure Except Pay Guest's Bill.

The interesting news comes from Paris that a hotel will be built there in which all the domestic service will be performed by electricity. If the promoters of the scheme keep their promises, everything will be done by electricity except the guests' payment of their bills. Even then they can give the cashier a shock by refusing to pay.

There will be no waiters, no bell boys, no coat boys, no chambermaids, and consequently no tips. If a guest arrives home at 3 a. m. all he will have to do is to touch a button, which will turn an electric sun, and then he can say to his wife:

"My dear, you're really getting lazy. Look at me. I'm up and dressed!"

If he feels that he needs a cocktail, he can touch another button. One touch brings a martini, two whisky, three a Manhattan, four very outh, five an ambulance, in answer, a dumb waiter rises through the floor either to bring the desired bracer, or, when need be, to lower the guest to the ambulance.

The hotel promoters lay much stress on the fact that all their waiters are dumb. In place of the ordinary Swiss who only stand and wait, instead of running and serving, there will be automatons run by electricity and guaranteed not to spill soup down your back or creamed asparagus in your lap. The dining table will be decorated with flowers raised by intensive electrical culture in both winter and summer, for there will be no seasons in this hotel; push a button and you're warmer than when you see another fellow walking with the "only dear one on earth," push another button and you're colder than when the other fellow frigidly asks, "What the devil are you doing here?"

One of the features of the hotel will be an electric orchestra, in which all kinds of stringed instruments will apparently play of their own accord.

The inventor, a Frenchman named

Georgia Knap, who has spent years experimenting with the various devices, asserts that they are now all absolutely perfect, and has formed a company under the name "Societe des Hotels Electriques" for the purpose of building electric hotels in every big city throughout the world—New York World.

HINTS FOR MUSIC PUPILS

If They Reside in Flats They Should Practice When Everyone Else Is Out.

Persons learning music and living in flat buildings should be induced to practice playing and singing on schedule.

A time at which nobody but the cook is around is suggested as a good one.

This would be considered a hardship by the grown person who works downtown and seeks the solace of music as interpreted by himself, but somebody in every community must make a sacrifice now and then.

Eight o'clock Sunday morning is not the time for a man with faulty fingers and an erroneous ear to play on the violin "Has Anybody Here Seen Kelly?" The answer of "no" is apparent, but the question is persisted in and the late once-a-week sleep which is a luxury to many is made impossible.

In fair weather the budding cornetist or violinist likes to sit by a window opening upon the light shaft. This spreads his villany all the easier among the neighboring apartments.

If it isn't a violin or a cornet it is a piano or the underdeveloped singer that is an affliction. "The Mikado" scale of justice is not available, but is pleasant to contemplate.

Crook With a Conscience.

A man walked into police headquarters the other night and handed Lieut. Gabe a pocketbook in which was \$2.65.

My name is Charles Schlick, and there is some money I picked from a man's pocket in the subway this evening," he said. "I'm no common crook, but I've been here three months and can't find a job. For two days I've been hungry. Tonight I sneaked by the ticket chopper in the Brooklyn bridge subway station, and standing next to this fellow I saw my chance. I got away with it, got off the train at Fourteenth street, got a good meal"—he straightened up—"and there's the change."

He said his conscience had so troubled him that he wanted to give himself up.—New York Sun.

Affection by Proxy.

"I find that my husband has been having the office boy call me up every day and murmur terms of endearment. That's a nice way to fool his wife. He's been going to the ball game."

"How is it that you didn't catch on to the voice?"

"Well, I'm busy at bridge every day and I've been having the cook answer the telephone."

A Test of Tact.

James Bryce, the British Ambassador at Washington, is the most tactful of men, and at a luncheon at the Country club he once defined tact in these words:

"Tact is the ability to remove the sting from a dangerous stinger without getting stung."

Miss Pearl Dougherty of Graham returned Wednesday to her school work at the State Normal. She makes her home with Mrs. W. P. Howland.

William Wagner and Wes Miller of Burlington Junction were visitors in the city Tuesday.

Miss Neola Thummel of Parnell returned home Tuesday from a several days' visit in the city.

Mrs. J. O. Anderson of Bedford, Ia., was shopping in the city Wednesday.

GIBRALTAR NEVER IS ASLEEP

Guns of the Great Fortress Are Kept Trained Constantly on the Surrounding Waters.

While it has always been known that Gibraltar, which belongs to Great Britain, is one of the world's strongest forts for both defense and offense, it seems incredible that an immense fleet could be sent to the bottom before getting within five miles of Gibraltar. Not even a torpedo boat could succeed in entering the bay unobserved on the blackest night. The most eminent naval experts are of the opinion that this world's greatest fortress is almost impregnable.

Gibraltar never sleeps. By day and night two perfectly equipped signal stations, proudly flaunting Britain's flag of ownership, sweep the seas around to a distance of 15 miles on a clear day, instantly reporting the coming and going of each vessel.

Modern "needle" guns, the finest in Europe, are installed on all the most prominent points. They are unreachably from the sea, even as they are indiscernible, owing to the skill with which they are planted and draped to match the surrounding vegetation, while huge screens drop automatically before them as each shell is fired. They have a range of 15 miles and could drop shells on Ceuta, in Africa, opposite, quite comfortably.

One gun weighs 110 tons and is capable of throwing a shell weighing three-quarters of a ton. In that marvel of engineering under great difficulties, the galleries, are concealed guns for every day in the year.

These galleries are divided into three sections, entry to which is guarded, while one is closed even to high officers, containing preserved stores, munitions of war, rain water (for Gibraltar has no springs) and a complete condensing plant—all calculated to outlast a siege of seven years.

The firing is the most mathematically perfect imaginable. The surrounding waters are mapped out into squares, upon which certain guns are kept ready trained, so that it is almost impossible to miss.

PLACE FOR FASHION HINTS

Policeman's Wife Rejoices Over His Promotion to the Fifth Avenue Squad.

When it was reported that the cross street policeman had been promoted to the Fifth Avenue squad the policeman's wife declared that she was the happiest woman in New York.

"Oh, it isn't the salary," she said, "nor the honor. I don't know whether he will get any more money or not, and as for the honor, he had enough of that where he was. But the fashions: just think of the hints he will pick up on them. For the last five years I have been sick with envy of the Fifth Avenue policemen's wives every time I went to a policeman's ball. They looked so chic. When asked where they got their ideas they said:

"Why, from my husband, of course. He is right in the center of fashion, and he takes notes and comes home and tells me things. Then when I get my clothes made up he can compare me with the women he sees every day and tell whether I look just right or not."

"Now it is my turn to crow. My husband's eye for clothes is as keen as any man's, and there won't be much in the way of style that will escape him. Oh, yes, no doubt he will be kept pretty busy managing the traffic, but you can trust him to find out how the new clothes are made, just the same."

OPIUM PROBLEM IS SERIOUS

Where the Poppy Is No Longer Cultivated in China, Bees Stop Making Honey.

Some unexpected results are found from the movement against the production of opium in China. In the Yunnan, one of the provinces where opium was produced in large quantities and at a low price and where a great deal of it was consumed, it appears that the poppy is no longer cultivated, owing to the recent measures, and the poppy fields have quite disappeared, according to the statements made by Doctors Talbot and Rigand. However, this has had a disastrous effect on the honey culture of the region. In fact, the honey from Yunnan was renowned for its quality, but as the bees find no more flowers, the production of honey is stopped as well. The new crops which replace the poppy, such as wheat or peas, are not such as will give honey yield as well. On another side of the question, it appears that the habits of the population are not suppressed by the present legislation, as some supposed would be the case, but according to Doctor Talbot, opium-smoking is again on the increase.—Scientific American.

POSSE IS HUNTING WHITE MURDERERS

Tables Turned in South When Negro Farmer and Daughter Are Killed.

BURNED ON LOAD OF COTTON

White Citizens Furious Over Outrage and Quick Death Will Follow Capture—Mob With Dogs is in Pursuit.

Savannah, Tenn., Dec. 6.—Four white men are fugitives from a posse of prominent planters who seek to avenge the murder of a respected negro farmer and the lynching of his two daughters. The slayers burned the three bodies on a load of the farmer's cotton.

Bloodhounds were put on the trail of the slayer and the whole country, aroused by the atrocity, arose and joined in the pursuit. It is believed the slayers will be lynched.

The identity of the murderers is unknown. There was no apparent motive for the crime.

Ben Pettigrew and his two young daughters, who lived on a farm near Fisher's landing were the victims. Pettigrew had borne a reputation for honesty and trustworthiness unequalled among the colored population of this section and was regarded as highly as any members of his race in the South.

Pettigrew was driving a load of cotton from his farm to Savannah. On the road a few miles from his place four white men appeared and shot him to death as he sat in the seat of his wagon. Then they dragged his two daughters from the top of the load and hanged them to a nearby tree. While their bodies dangled from a limb the slayers drove the load of cotton under them and set fire to it.

Other farmers driving along the road saw the blazing cotton and arrived in time to see the four slayers escape into a dense thicket.

The bodies of Pettigrew and his daughters were burned to a crisp before the cotton fire could be extinguished.

The authorities here were notified of the slaying and at once organized a posse. The most prominent and wealthy planters in this section of the country volunteered to aid in running down the fugitives and an alarm was sent throughout the countryside.

Fifty men and four bloodhounds were in the posse when it left Savannah.

As news of the crime spread new volunteers joined the band until more than 300 men and a dozen dogs were on the trail. Ropes were carried by some of the rescuers.

Orders Bail for a Shot.

Topeka, Dec. 6.—The Kansas supreme court has just issued a writ of habeas corpus for the release of N. T. Oleson from the county jail at Council Grove when Oleson put up a bond for \$20,000 for his appearance next month. Oleson is in jail for the murder of Walter H. Newfarmer, August 28, 1911, and the Morris county court refused to grant his release on bail because he was held for murder in the first degree.

Boy Accidentally Killed.

Thayer, Mo., Dec. 6.—Charles Mendenhall, 14 years old, who lived near Thayer, was accidentally shot and killed. The boy had gone out after breakfast with a small rifle and soon afterwards was found in the barnyard with a bullet hole in his head.

Italian Victory in Tripoli.

Tripoli, Dec. 6.—A force of 20,000 Italians attacked and occupied the Turkish military camp on the oasis of Ain-Zara after a severe battle in which both sides are reported to have lost heavily.

HUMOR IN HIS EXAGGERATION

Jabish Furlong's Recital Illustrates the Characteristic That Makes Maine Stories So Amusing.

Novel and exaggerated smiles and comparisons characterize Maine speech. Instead of such commonplaces as "As light as a feather" and "As dark as a pocket," the comparisons are likely to be "Forty pounds lighter than a straw hat" and "As dark as the inside of a cow."

And it is this same humorous exaggeration that makes many a Maine story so likeable. Jabish Furlong, who worked for old man McKusick in haying time, had it.

"I had the greatest luck out gunning the other day," said Jabish. "I was walking a log across a deep hole in the brook, when I saw a squirrel up a spruce on the further bank. I up right there and fired, and I fetched down the squirrel and a partridge besides that was settin' in the spruce buidin'. But the old gun kicked me into the brook. Well, I floundered around, catchin' hold of everything within reach, and when I found myself up on the bank, I had a mink in one hand, a musquash in 'other and the seat o' mer pants was full o' trout."

Where Wesley Wrote Hymns.

The Rev. J. H. Wicksteed, vicar of Bexley, Kent, England, has presented to the Wesleyan Methodists of Gravesend and Dartford circuit a tree from the vicarage garden, a sapling of the old oak under whose branches John and Charles Wesley, with George Whitefield, often met in friendly conference.

It is believed that Charles Wesley composed some of his hymns under its shadow, and John, in his diary of September 22, 1740, writes: "I went to Mr. Mer."

where in I expect I wrote my hymns. I was in the garden, when I saw the old oak tree, and I thought I would go to it. I was in the garden, when I saw the old oak tree, and I thought I would go to it. I was in the garden, when I saw the old oak tree, and I thought I would go to it.

PRISON FOR THE McNAMARA'S

J. B. GOES FOR LIFE—J. J. FOR FIFTEEN YEARS.

Judge Comments on Plea That Destruction of Life Was Not Intended—The Confession.

Los Angeles, Dec. 6.—James B. McNamara, confessed murderer, was sentenced to life imprisonment here by Judge Walter Bordwell.

His brother, John J. McNamara, secretary of the International Association of Bridge and Structural Iron Workers, who confessed to the dynamiting of the Llewellyn Iron Works, was sentenced to 15 years in the penitentiary.

Twenty-one persons lost their lives in the Times disaster. No one was killed in the Llewellyn Iron Works affair.

Imprisonment will be in San Quentin penitentiary.

"The defendant will arise," said Judge Bordwell, who then commented upon McNamara's declaration that he did not intend to destroy life.

"The circumstances are against that statement," he said.

For reasons other than such a plea of non-intent, Judge Bordwell declared he would impose the penalty of imprisonment for life.

John J. McNamara came next. The Llewellyn Iron Works indictment was read to him by the judge.

Judge Bordwell declared that the strictures against James B. McNamara would also apply to him.

Clemency, he declared, was not because of merit as to intent. He then imposed sentence of 15 years in San Quentin penitentiary, one year more than had been predicted.

Los Angeles, Dec. 6.—James B. McNamara's brief confession, penned by his own hand and bearing many evidences of a man little skilled in letters, has been made public. It is as follows:

I, James B. McNamara, defendant in the case of the people, having heretofore pleaded guilty to the crime of murder, desire to make this statement of facts. And this is the truth: On the night of September 26, 1910, at 5:45 p. m., I placed in Los Alley, a portion of the Times Building, a suitcase containing sixteen sticks of 30 per cent dynamite, set to explode at 1 o'clock the next morning. It was my intention to injure the building and scare the owners. I did not intend to take the life of anyone. I sincerely regret that these unfortunate men lost their lives. If the giving of my life would bring them back, I would gladly give it. In fact, in pleading guilty to murder in the first degree I have placed my life in the hands of the state.

(Signed) JAMES B. McNAMARA.

BIG FEE FOR DEFENSE ATTORNEY

Clarence Darrow, Who Handled McNamara Case, Got \$50,000 for His Work.

New York, Dec. 6.—"Not less than \$50,000" was the fee received by Clarence Darrow for his services in defending the McNamara brothers in the Los Angeles dynamiting cases, according to a declaration made by Frank B. Morrison, secretary of the American Federation of Labor and custodian of the McNamara defense fund.

Mr. Morrison also said that notwithstanding the McNamara brothers' pleas of guilty in the Los Angeles dynamiting cases, money for their defense was still pouring in. These receipts represented subscriptions made before the pleas were entered. Mr. Morrison and other members of the federation's ways and means committee, who have charge of the fund, will meet in Washington soon to discuss the case, especially from a financial viewpoint.

Deeds, Not Words, to Count.

Berlin, Dec. 6.—The Moroccan question came up at the final session of the Reichstag. Chancellor Von Bethmann-Hollweg in a speech lasting half an hour gave a calm and dispassionate exposition of the German case. The discourse made it clear that Anglo-German relations in the future would depend on deeds rather than on assurances.

A Tennessee Romance.

A St. Louis man went down into Tennessee the other day to freshen memories of his youth. In the course of looking up everybody he called upon an old negro mammy who is a fixture upon the place.

"What's new, mammy?" he asked.

"Well, Marse Bob, they ain't no nuthin' new 'cept Nellie's gwin marry Lee," she said.

"That trifling nigger Lee, mammy? How did that happen?"

"Ah don't know, Marse Bob. You see, Nellie's got a home an' a stove, an' fall's a comin' on. Ah 'specs that nigger Lee's jes' fixin' to baffle the winger, Marse Bob."—St. Louis Post-Dispatch.

He Called It Luck.

Michael Meehan was the proud possessor of a brand new silk high hat. At the wake of his dearest enemy he had guarded it carefully, and as a consequence was strolling home with the tile unsashed. As he passed the site of a building operation, a woman acquaintance nodded pleasantly. With an ostentatious wave of the hat, which exhibited it to excellent advantage, Michael bowed. At the same moment a brick sailed down from an upper floor and bounced from his bare skull. Upon coming to, he inquired anxiously for the hat. A bystander restored it unharmed. Mike felt the egg-size lump on his head occasioned by the impact of the brick, and then regarded his undamaged tile. "B'gorry," he sighed in satisfaction, "it's lucky it is I saw the lady in toime!"—Lippincott's Magazine.

No More Pudding.

Margaret, a little girl of four, was visiting her grandparents. There were a number of aunts who were somewhat careful of her looks as well as her morals. When read to go home Margaret said: "When I get home I'm goin' to wash my feet, I'm not doin' no more puddin' on my face."

TASTE, SMELL AND HEARING GONE

Destroyed by Catarrh Can Be Quickly Restored by Using Ely's Cream Balm.

The thousands who suffer the miseries of colds and catarrh and claim they have never found a cure can get instant relief by simply anointing the nostrils with Ely's Cream Balm.

Unlike internal mixtures which upset the stomach, or strong snuffs which only aggravate the trouble, this cleansing, healing, antiseptic Balm instantly reaches the seat of the trouble, stops the nasty discharge, clears the nose, head and throat, and brings back the sense of taste, smell and hearing. More than this, it strengthens the weakened and diseased tissues, thus

protecting you against a return of the trouble. This remedy will cure a cold in a day, and prevent its becoming chronic in catarrh.

Nasal catarrh is an inflammation of the membrane lining the air passages, and cannot be reached by mixtures taken into the stomach, nor can it be cured by snuffs and powders, which only cause additional irritation. Don't waste time on them. Get a 50 cent bottle of Ely's Cream Balm from your druggist, and after using it for a day you will wish you had tried it sooner. If your case requires a spray, ask for Ely's (Liquid) Cream Balm.

Mothers should give the children Ely's Cream Balm for colds and croup. It is perfectly harmless and pleasant to take.

CHINESE REBELS LACK A LEADER

Revolutionary Juntas Anxiously Await Arrival of Dr. Sun Yat Sen.

ANARCHY THREATENS EMPIRE

Conditions Everywhere Growing Worse Millions Starving Near Shanghai—Both Sides Out of Money.

Shanghai, Dec. 6.—Each day brings deeper apprehension that China is drifting into a political chaos. Although the fundamental aims of the present revolutionary movement are worthy, they are brought to naught by lack of cohesion, lack of funds and lack of a real leader.

The revolutionary juntas here are now marking time, awaiting the arrival of Dr. Sun Yat Sen, who is expected at any moment.

The fall of Han-Yang last week proves to have been due entirely to wholesale desertions of rebel troops enrolled in Hu-Nan province. Most persons attribute the desertions to the old time jealousies between the people of Hu-Nan and Hu-Peh.

The complete collapse of the imperial government is regarded here as imminent and there is as yet nothing stable to take its place. The revolutionists have thus far been incapable of effecting and cohesion among themselves and unless Dr. Sun Yat Sen proves to be the man of the hour they will be found far less efficient if called on to take up the responsibility of a national government.

The cost of the struggle thus far has been far greater than is easily realized. Apart from the losses of campaign and battle fields, it has plunged a majority of the provinces into poverty and famine, it has stopped all commerce and trade, crippled agriculture and industries and diverted practically every penny of tax revenue from the purposes of peace.

The moral effect on the people at large is another matter. Reports from the interior indicate that conditions everywhere are growing worse. Brigandage is almost the only profitable profession left to a people hitherto peaceable and orderly. Millions are starving within a radius of a few hundred miles of Shanghai.

Close observers are more and more uneasy regarding the prospects for foreigners in the immediate future. Facts are hard to get at. Both sides are financially close to bankruptcy and realize that their first need is to establish credit. In the hope of securing assistance abroad they are unsparing in the use of legitimate and illegitimate means to influence opinion.

Some of the accounts of barbarities and atrocities may have been exaggerated, but it must be remembered that many things which make the Westerner shudder cause no disturbance to the nerves of the Oriental.

MOBBED SHIRT-WAIST MAKERS

Survivors of Tri-Angle Fire in New York, Attack Factory Owners in Courtroom.

New York, Dec. 6.—A mob of 300 women, survivors of the Tri-Angle Waist company fire in which 146 girls lost their lives, attacked Isaac Harris and Max Blank, proprietors of the waist company, when the men appeared in court to stand trial for manslaughter.

All the court officers in the building and the police reserves were called out to check the assaults.

With torn clothing and disheveled hair the defendants were finally released and escorted under heavy police protection to the courtroom. The women had been summoned as witnesses for the prosecution.

State Poultry Show.

Fulton, Mo., Dec. 6.—The annual state poultry show for northeast Missouri has just opened in this city. The Callaway county fanciers are represented at the show by the largest number of birds ever shown by one county at the state show. A poultry school will be conducted and Henry Steinmeyer and C. A. Morton of St. Louis will lecture. E. E. Reynolds of Vandallia is superintendent of the show. The exhibition will end Friday. A meeting of state association members will be held Thursday night.

To Picture shows in Chains.

Topeka, Dec. 6.—Two of the most dangerous criminals in Kansas are being taken to moving picture shows at St. John and J. N. Dolley, state bank commissioner, has ordered that the practice be stopped. Walter Berger is under sentence of 35 years in prison and Charles McKenzie has been sentenced to 40 years in prison for the robbery of the Hudson State bank in Stafford county last spring. These are the heaviest sentences imposed on bank robbers in Kansas.

Olathe Adopts New Rule.

Olathe, Kan., Dec. 6.—The two years' campaign here for the commission form of government was won by a vote 461 to 71. The vote was light because there was no opposition to be overcome. City officers will be elected under the new form in the spring.

SOCIALISTS LOSE IN LOS ANGELES

Developments of McNamara Case Helped Defeat Harriman.

PROHIBITION ALSO DEFEATED

Much Scratching of John A. Scott, One of the Defense Attorneys in Dynamiters' Trial—Election Was Quiet.

Los Angeles, Dec. 6.—Socialism crumbled in a final struggle with its opponents under the "good government" banner at the ballot box and was defeated. Evidently the sudden change in the McNamara case had an effect.

Estimates based on a partial count of the vote place the majority for Mayor Alexander over Harriman at more than 50,000. Alexander carried Harriman's precinct, 1,537 to 192. Partial returns indicate that prohibition has been defeated.

Ninety per cent of registration on the West Side, where the vote was light in the primary, was voted, while on the East Side, Harriman's stronghold, there was a falling off in comparison. The women on the West Side outvoted the men. The reverse was true in precincts where Harriman was the stronger in the primary. But the balance of power, which the women were credited with having prior to the astounding results of the McNamara case last Friday, did not figure in the result.

Harriman was in conference with his campaign manager, Alexander Irvine of New York, early in the evening. He declared that gross frauds had been perpetrated by the opposition, but refused to concede his defeat.

The victorious ticket consists of Mayor Alexander and nine councilmen, made up of bankers, lawyers, storekeepers and realty brokers.

On the defeated Socialist ticket, beside Harriman, the lawyer, there were one negro junk dealer, a former editor of one of the local morning papers, two iron moulders and several labor leaders.

One feature of the balloting was the scratching, which was early apparent of Joseph A. Scott, candidate for reelection to the school board who also was one of the attorneys for the McNamaras.

It became apparent early that the trouble expected to develop on account of the feeling engendered by the McNamara case would not occur during the balloting. "The peace insurance" army of 1,000 officers detailed by Chief of Police Sebastian and Sheriff Hammel had little to do.

Only three minor cases of trouble were reported. Except for these peace prevailed and for this, leaders of both sides thanked the women, thousands of whom were crowded about the polling booths of the 317 precincts.

The women were treated with the greatest gallantry. Many went to the polls propelling baby carriages, and often father took care of baby while mother voted.

CUT DIPLOMATIC EXPENDITURES

Representative Hamlin of Missouri, Wants to Amend Statute Controlling Secret Fund.

Washington, Dec. 6.—Criticism of president and secretary of state for their interpretation of the statute governing the secret fund for the state department was made by Representative Hamlin of Missouri in a speech in the house. Hamlin is chairman of the committee on state department expenditures, which has been making an investigation.

In six years, Hamlin said, department officials had expended secretly \$732,981, averaging \$122,000 a year, when the secret fund appropriated for such a purpose was only \$90,000 a year. He called upon the house to amend the statute to prevent the fund becoming "the very haven of official piracy."

Mississippi Boat Sank.

Thebes, Ill., Dec. 6.—The large steamboat City of Savannah, going from Cairo to St. Louis, struck a snag in the Mississippi river opposite Elkins Landing, ten miles below Thebes and sank in 12 feet of water. All passengers and crew were taken off safely. The boat carried a heavy cargo. Relief was sent from Cape Girardeau, Mo.

Big Grocery Fire.

Kansas City, Mo., Dec. 6.—Fire which was discovered at 11 p. m. resulted in a total loss of the building occupied by Long Brothers, wholesale grocers, at the corner of St. Louis Avenue and Santa Fe Street, in the West Bottoms. The value of the stock and the building was over \$300,000.

His First Journey at 73.

Nevada, Mo., Dec. 6.—Joel Smith, 73 years old, who was born in Cedar county, left that county for the first time and took his first ride on a railroad train. He came to Nevada to take a trip to Oklahoma. Smith's longest previous journey was to Eldorado Springs, six miles. Smith owns much valuable land in Cedar county.

CAUSE FOR ALARM.

Loss of Appetite or Distress After Eating a Symptom That Should Not Be Disregarded.

Appetite is just a natural desire for food. Loss of appetite or stomach distress after eating indicate indigestion or dyspepsia. Over-eating is a habit very dangerous to a person's good general health.

It is not what you eat, but what you digest and assimilate that does you good. Some of the strongest, healthiest, and healthiest persons are moderate eaters.

There is nothing that will cause more trouble than a disordered stomach, and many people daily contract serious maladies simply through disregard or abuse of the stomach.

We urge all who suffer from any stomach derangement, indigestion, or dyspepsia, whether acute or chronic, to try Rexall Dyspepsia Tablets, with the distinct understanding that we will refund their money without question or formality, if after reasonable use of this medicine, they are not perfectly satisfied with the results. We recommend them to our customers every day, and have yet to hear of any one who has not been benefited by them. We honestly believe them to be without equal. They give very prompt relief, aiding to neutralize the gastric juices, strengthen the digestive organs, to regulate the bowels, and thus to promote perfect nutrition, and eradicate all unhealthy symptoms.

I advise every woman who wants beautiful hair to use Parisian Sage." Miss Meta M. Kruger, Browntown, Minn.

New Russian Oil Region.

While Baku is known as the great oil producing province of Russia, and its wells have produced immense quantities, its reputation bids fair to be overshadowed by the new region, the Sallany Steppe. Sallany is about 125 miles distant from the city of Baku, on the shore of the Caspian sea, at the mouth of the Kura, the largest river in the Caucasus. Its position is a commanding one, both for supplying the European and eastern market. The petroleum deposits in the Sallany steppe have been known for years, but only recently has attention been attracted thereto. The possibilities are very great.

Forced to it.

"Did you ask father if you might have me?"

"Yes, darling."

"What did he say?"

"He said he would rather see you borne to your grave."

"Oh, pshaw, then we'll have to take it up with mother personally."—Chicago Record-Herald.

NOTICE

In accordance with a petition of the citizens thereof, and presented to the board of aldermen on December 1, 1911, it is hereby ordered by the board of aldermen that the provisions of ordinance No. 282, of the city of Maryville, Mo., providing for a uniform and systematic plan for house numbering in the city of Maryville, Mo., be put into effect and be enforced. It is hereby ordered that Mr. John Spiekerman be and he is hereby given permission to make all such necessary arrangements to put the plan and system as contained in the said ordinance No. 282 into effect, and to enforce the same.

Said ordinance No. 282 may be found on page 362 of book 8, city ordinance record.

Under the present plan and system it is very inconvenient for mail carriers, merchants and the fire and police department to find houses as now numbered.

It is the desire of the city to have such a system as may be readily understood by all persons concerned, and that the same shall be permanent. I therefore order that this ordinance be strictly adhered to.

WHY HAVE GRAY HAIR.

Sage and Sulphur Will Restore Gray and Faded Hair to Its Natural Color.

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance they made a brew of sage leaves and applied it to their hair, with wonderfully beneficial effect.

Nowadays we don't have to resort to old-time, tiresome methods of gathering the herbs and making the tea. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready-made product, Wyeth's Sage and Sulphur Hair Remedy, containing sage in the proper strength, with the addition of sulphur, another old-time scalp remedy.

The manufacturers of this remedy authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

Don't neglect your hair. Get a bottle of Wyeth's Sage and Sulphur today, and notice the difference after a few days' use.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agents, Koch Pharmacy.
